If there's a number, that was the approximate claiming price of the race. For example 10AP29 means a \$10,000 claiming race at Arlington on the 29th of the month. For missing races, a summary is provided. "Rui 5X 2/0/1" means five races at Ruidoso Downs. The horse won twice & finished third once. If there's a dollar amount, that's the purse money earned for those races.
